

the Do Not Call List is the best thing ever. I pay to have my phone unlisted. My right to privacy is still my right in this United States. After work all day, I enjoy my time at home in peace. There is no need to contact me at all. If I want to purchase something, well, I have my own mind and I am intelligent enough to figure out how to find the source. Keep the "Do Not Call List" intact. Thank you.
